Need a Distinctive, Noticeable and Affordable Website?

Point and Click Your Way to Building a Website

Are you looking for a better way to promote your practice online and increase the number of new patients? Then look at optometry.net to create and manage a professional website—**without any special software or html programming skills.** Our website builder tools make the process of creating and maintaining a website easy and painless. Eliminate time consuming steps.

Key Features and Benefits

- Choose from eye-catching Web templates and color backgrounds— point and click using easy-to-use Web-based forms. Create unlimited Web pages.

- Use the powerful Text Editor to type in your own text, create tables, and change colors and font sizes. Link PDF, Word, PowerPoint, Excel, ZIP and html files.

- Display your Twitter "tweets", YouTube videos and Facebook links.

- Add impact to your site with graphics and photos from an Image Library or insert your own wherever you want.

- Improve office efficiency and save valuable staff time. Have your patients complete and submit an online welcome form before their first visit. Transfer data to a MaximEyes patient record—**you can even design your own welcome form using the Welcome Form Manager service.***

- Create and send bulk e-newsletters, patient reminders, and more using built-in colorful e-templates—save hundreds of dollars each year on printing and mailing costs.

- Educate your patients with informative eye health care articles using a comprehensive Vision Library.

- Add Google Analytics tracking code to your website to analyze digital data.
